

# 1 foot of Sea Level Rise

## Manchester Township

### Legend

- Municipality
- ▲ Schools
- Fire Stations
- ◆ Law Enforcement
- Assisted Living
- Hospitals
- Evacuation Routes
- 1ft SLR

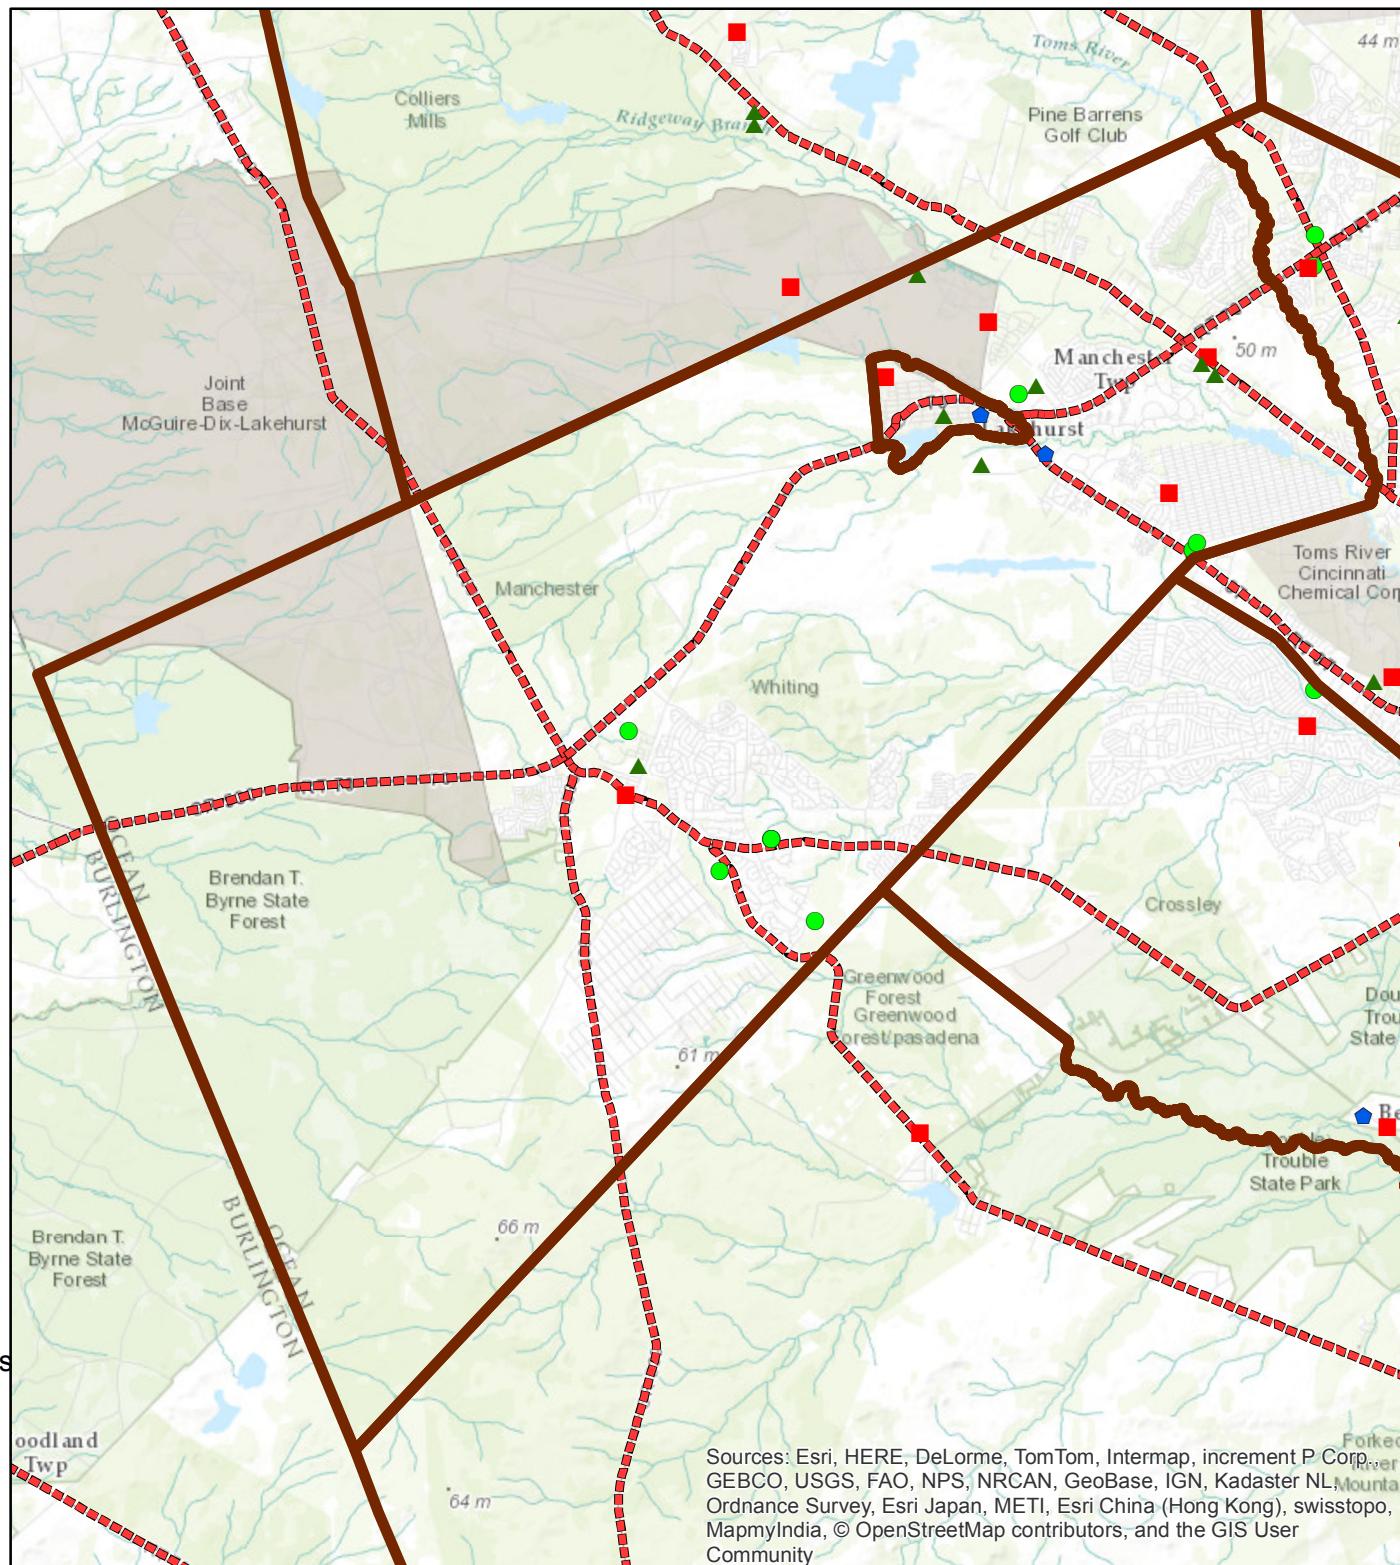

Year 2010 Population: 43070

According to Kenneth G. Miller et al. in the 2013 study "A Geological Perspective on Sea-Level Rise and its Impacts Along the U.S. Mid-Atlantic Coast" a probable threat is the 1ft sea level rise condition that could be expected by 2050. This map depicts that sea level rise as well as the proceeding projections thereafter and is centered on target municipalities

## FEMA's PFIRM Flood Zones for New Jersey Manchester Township

## Legend

- Municipality
  - ▲ Schools
  - Assisted Living
  - ◆ Law Enforcement
  - Hospitals
  - Fire Stations
  - Evacuation Routes

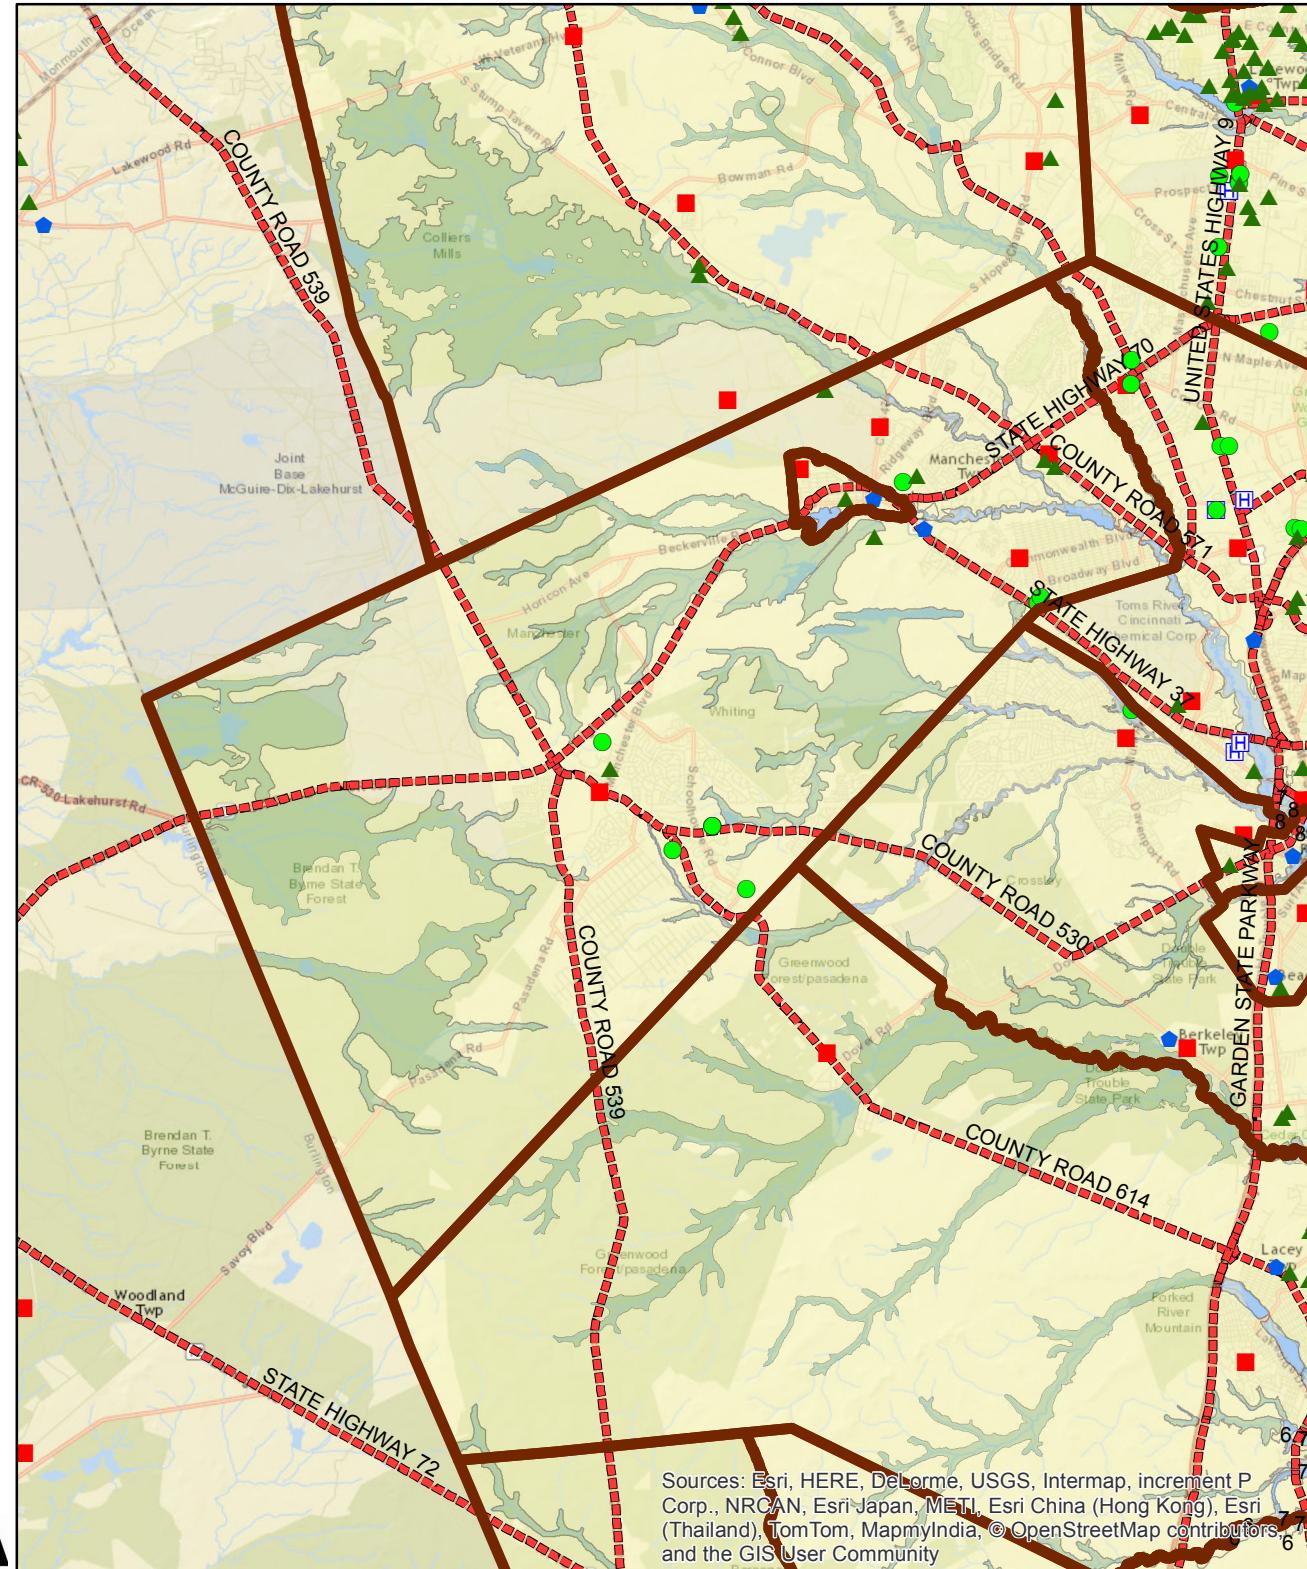

PFIRM

- Zone X - 0.2% Annual Chance
  - A
  - AE
  - AO
  - D
  - VE

A horizontal number line representing distance in miles. The line starts at 0 and ends at 6 Miles. There are 7 tick marks on the line, including the start and end points. The labels 0, 3, and 6 Miles are positioned above the line. The distance between each tick mark is 1 mile.

This map shows the extents of FEMA's latest flood insurance rate maps for the state of New Jersey. The numerical label on the zones portrays the static ABFE zone. Please refer to the index for more information.
